I shall write you and Akbar sometime later when Maria goes for her confinement. London 11-5-51

My dear Raza. Have received the Money which Padamsee has sent, and his very encouraging letter.

Please send me the name and address of your wife, with other details if any, so that I can send her the £5 <sup>from</sup> you. Alec has given me some excellent reports of your work and Akbar's. He says you are really doing some thing fine. I am anxious to see what you two chaps are —! well never mind.

Bakre is here. He is passing through the phase of loneliness and despondency which is inevitable to the newcomers to London. With best wishes, Newton
