Berkeley.

Razgi Janine Ji -

For a long time, you
will say, I have not written - but that
is not true - for I always keep a writing
✶ in the memory file of my little mind
there are pages & pages written to you
only they have remained in thought &
never been posted & some which I did
write, (enclosed & if you can make it out!) also
remained with me - but as you
will see you are in my mind all
time after time all the time -

And so I keep on thinking of you
& waiting when again I shall have
wonderful times - this time of course

it will be with one new member my poppy.
& it ~~to~~ should make a good four some to
climb the eiffel tower again —

As you see gai too new at of Barbey
I will be all alone here & lets see
how it is going to feel & fill the time!
But its real wonderful that atleast
gai has got this alacarte opportunity to
travel & be in U.S.A. — bay, he's
really going to have fun & he
deserves it — Akbar will

detail you all that has been happening
here — he is exciting & changes everything
when he comes here & everything changes
when he goes from here! & thats great —
When the hell are you going to come here?!

I do keep on painting slowly but steadily and
I don't have a gallery pushing me around!! I would love
to be at your show in the 18th but gai will represent & thats good.
Good luck + lots I love — T Bel
