My dear Ramkumar

Bombay.

Do you know who is writing this letter? Bakre (sculptor) I hope you remember me. Well how is life in Paris?

You must have received a letter from Raza, that he is living on 21<sup>st</sup> sept. and he had already left. I am sure you will have a happy meeting. But since I am missing him very badly here.

Do you have any idea about <sup>did you</sup> Newton's visit to Paris? And heard about Mr. Mongal who is in Paris since last few years? Please try to find out him and I will be greatful if <sup>you</sup> write to me.

There is nothing much to say at present but you will have a fresh friend to talk listen all news about Bombay artist and their art.

I hope you will not mind if I write few lines to Raza in this

letter. My dear Raza

You are going to France. Yes I am living; and you left — now you are in Paris.

Everything is different from daily life in Bombay.

Now <sup>no</sup> more Bakre, Bra, Husin & others. I am sure you will enjoy your life in the country of art.

Now Raza you should improve your health, you must eat good <sup>food</sup> and plenty. "Health is Wealth" and to produce new work you will have more energy. Look Raza it my humble request not to smoke bad and many cigarettes.

Smoke but good and few. It is very easy to advise others, but I often smoke charminas but do not forget that still I am in India. !!!

Thanks very much Raza about books which you have given to me. I will study

those books properly.

Since you left I have not met to Kreshana and others. I do not feel to go any were I am very much disappointed. I am ~~in~~ serious what you told me in the train Your advice is worth trying.

If there are any instructions about your paintings or any other work to be don here! Please let us know

I am waiting for reply  
Wish you best luck  
and success in every work.

yours sincerely  
Bakre
