

Dr. Geeti Sen

art historian • author • editor

24 February 2008

Dear Raza Sahib,

Each year is a Milestone, and this Birthday celebration of yours is no less in its festive atmosphere. I was glad to be able to participate, and I wish you many more years of fulfillment.

We are meeting Today, I hope quietly, to ruminate. One of my dreams is to see the book which I have written Bindu, Space and Time... is reprinted, and available to all those who have grown to love your work. We spoke about this briefly: I believe that it can be one of the many projects of the Raza Foundation to further understanding of your work. This book took me as you may recall, three years of research, interviews, visits to France. I also believe that Umal and Sunaina Anand of Art Alive may be the right people, interested in fine publications, to take up this responsibility.

Let me hope you will give this some serious consideration. I am also hoping to visit Gorbio in mid June, this year, after London. If I can be of any help in writing/cataloguing your collection there, please let me know. With deep affection and warmth,

Geeti Sen
