My dear Raza,

How very sweet of you to write and
your kind words of sympathy were
of great comfort for me, coming as
they do from such an old and loyal
friend as you have always been.

I was most delighted to hear of
you & your progress in the world of
Art, first from Rudi after his visit
to you, and now from yourself.
You & your dear wife have all my
best wishes for the future, may
it give you all the satisfaction

and achievement you hope for. -

I did quite a lot of painting
since we returned from India 11 years
ago, lately I have concentrated on
portraits mainly, which has
fascinated me very greatly. -

My fondest love to your daughter,
I also hope we shall meet
again, some time, somewhere,
at the moment my plans are
quite obscure, this terrible visit
marked by Marshall's premature
& sudden death is too sad and
too deep to cope with at just now.

Yours ever truly.
