PARIS, 5th April, 1988

Dear Czee,

My last visit to India offered me wonderful moments.

I was indeed moved by the warmth + sympathy shown to me + to my work. I can travel in space + in time. Both mind + heart responded. I could touch my energetic centers. It was an elevating experience, difficult to describe. And now, here I am, back + inspired as if possessed by an incredible inner force.

Innumerable memories haunt me. I remember your visit to the gallery + the keen inspired way you looked at the paintings. I had hardly unrolled them. And you + your sister had the first view + picked up the best. My paintings sell regularly, but this was very special. Firstly, it happened at home. And - it was the way you talked, looked + reacted.

And then, I remember the get together at your home. The painting seemed as happy as I was. I was delighted to meet friends + talk to Gauri + Kanika.

Later the "vernissage", dinners, interviews + meetings kept me busy. I also traveled in Gujarat + Madhya Pradesh. Days passed very fast. The last visits to Bhubaneswar + Delhi; I reached Paris on the 19th February.

Since then, innumerable letters, news + reviews have reached me. It's overwhelming. Time is necessary to assimilate the experience, to digest + reach the charged superior state to be able to work. It's all very slow, but I am applying myself to the best of my ability.

Hope you continue to enjoy the painting. With warm greetings + affectionate thoughts
