Paris. 29th March - 1966.

My dear Fred.

How great is our joy today at the reception of your letter & the news of the encounter that proposes to bring happiness into your life. You have been constantly in our thoughts & this news along with the prospects of your coming to France often, have delighted us beyond measure. Both Janine & I, hope that you will ultimately decide to settle down in France which is the most beautiful country on earth - & which you will do well to rediscover.

When are you coming to Paris. We should love to meet you. Our healths have given us some worries & we are advised to pass a few quiet months every year in our village. But we can plan it so to be here when you come provided we know in advance. On this card, a few images of the village & our house. I would have liked you to 'buy' the Chateau next to us, but alas a Belgium advocate has already acquired it. We are only 7 km. from the sea & Menton - the last port on the French Italian border.

Let us know at your earliest when you intend to come here. We should so much like to meet you both in Paris. All our love - RNA

15 rue Paul But, Paris 11e (Vol 39-77) Janine.
