c/o AMERICAN UNIVERSITY
ART DEPARTMENT
MASSACHUSETTS & NEBRASKA AVE. N.W.
WASHINGTON D.C.

Dear Jeanine & Raza,

We are just now in Washington D.C. and Krishna has started his teaching in the University for 6 weeks.

We finished our sculptures in Montreal by the middle of August. The City of Montreal let Shirley do a sculpture also and bought her piece to remain in the park with the other sculptures. We really enjoyed working with some of the other sculptors, like Signori, Chavignier, Cardenas, Skelton and the others.

We spent 3 weeks in New York and met some of the people whose addresses you were kind enough to send us. We found New York exciting.

We leave for Texas towards the end of next month and then go on to California before we return to Paris.

How did you spend this summer? Were you able to finish your place in the South? It must be very beautiful now. Do write to us when you have time.
With much affection & love
Krishna & Shirley
