Dear Raza,

Thanks for the loving letter. I am sorry I cannot write in such beautiful handwriting and artistic language as you do!.

I and Raksha still cherish the happy memories of being with you in Ahmedabad and Bhopal. We are fortunate and proud to have the finest of human beings as our friend.

Today I saw your profusely illustrated interview by Kamla Kapoor in 'Sunday Observer'. It seems the Calico Museum has left a lasting impact on you. I still remember - you were in an ecstasy - while seeing the Pichhwais.

I would be most happy to exhibit the Nathdwara paintings from my collection, but as I am totally unaware of the mechanics of such affair - I will await your positive indication and guidance.

In-spite of the guests I am able to work now! These days I have started a painting of 4' x 8' size.

All the while your hints and suggestions are in my mind.

Though we have not met Jenin - we feel quite attached to her too. Give our love to her.

Hoping to see you both in Ahmedabad in the near future. (Three days limit do not apply to you!)

yours -
Amit.
